Baseball Commission Makes Award.
Cincinnati, Sent. 20.—The National Baseball commission today awarded Player Riley of the Wichita club to the St. Louis American League club. The St. Louis club claimed Riley under an agreement in which Player Clyde E. Wares was released to the Wichita club. Wares was later repurchased by the St. Louis club and Wichita claimed that this repurchase made the claim on Riley null and void. The condition, however, raied that the agreement held good regardless of the repirchase of Wares.

Burkett Withdraws from Worcester Team.

Worcester, Mass., Sept. 20.—Jesse E. Burkett, for several years manager of the Worcester team of the New England league and a part owner, today withdrew from connection with the clab. His stock; was taken over by Secretary John J. O'Donnell and will be sold to local men.

Dortant details connected with that important undertaking remain to be exact purpose to which the such as the sum total and the exact purpose to which the proceeds are to be applied.

External conditions, so far as they bore upon affairs across the water, exercted little influence in either direction, although London once more reported a heavy tone for the international list. Metal stocks, notably American Smelthesy tone to the shares of other ompanies having Mexico.

New high records, some of which were partly lost at the active close, included Studebaker with an extreme gain of 11 3-4 at 141, General Motors \$ to 296, Willys-Overland 7 to 210. United States Industrial Alcohol 6 to day withdrew from connection with the plab. His stock; was taken over by Secretary John J. O'Donnell and will be sold to local men.

DETROIT'S HOPES GROW DIM

Red Sox Squeeze Out Another Victory Over Fighting Tigers -Score 3 to 2-Excellent and Brilliant Fielding by Bostonians Held Down the Scoring.

Boston, Sept. 20.—Turning the Tigers back for the third time today, three runs to two, the Red Sox went into a lead of more than four games in the American League race. Detroit's pennant prospects were thus dimmed before a crowd which brought the total paid attendance for the four games series to 107,423, believed to be a record for any but world title contests. Vice President Thomas R. Marshall was among the spy sattors.

Detroit's was an aggressive game today. The Tigers got men on bases either on passes or hits and forced them along by might of bat or bursts of speed, but except in the first inning, found Boston's fielders barriers of progress beyond third base. In the opening inning, Ruth passed the first man, and hit the next, and with Cobb's sacrifice and Veach's single, the Tigers scored their only runs. They filled the bases in the eight, Ruth forced his retirement, but Foster struck out Baker and the side was out. At other times during the game, it was Hooper's bullet-like throws, Bartiers of head of the was able to step away from everything but Vaster, in the next two. The Winnipeg geiding

Since their reorganization the Sachems have played good ball and look to be worthy of a show for the laurely.

FINANCIAL AND COMMERCIAL

MARKET WAS STRONG.

Dealings Were Larger and Quotations Higher Than in Recent Sessions.

New York, Sept. 20.—Dealings in stocks today were on a larger and more comprehensive basis than at any recent time, to the general accompaniment of higher quotations. To be sure, war specialties yielded none of their recent prominence, but the undertone of the market was strengthened by what seemed to be an inquiry from investment sources for the better known railways and other issues of recognized merit. Sentiment was encouraged by the course of foreign exchange, which again rose appreciably on the growing belief of a satisfactory consummation of the Anglo-French credit negotiations. It is understood, however, that some of the more important details connected with that important undertaking remain to be settled, such as the sum total and the exact purpose to which the proceeds are to be applied.

Steel led the movement throughout, fluctuating within a range of 1 3-8 and closing at 76 1-8, a net gain of 3-8. The only heavy features were Colorado Fuel and Great Northern Ore, which relinquished a considerable part of last week's gains on denial of "combination" rumors. Total sales amounted to 930,000 shares.

Domestic news included western advices indicating better and easier business conditions and improvement in the traffic situation, due mainly to

This significant statement appears in an editorial in the July number of the English journal. The following remarks, abbreviated from a critical article on war trucks in that number, further emphasize the triumph of the latest approved type of American motor truck design.

These vehicles, continues the Automobile Engineer, were called upon to carry a load of two tons anywhere it could be taken by a mule team, and it is understood that before being adopted by the United States army these vehicles were subjected to this and other most stringent tests. The races were on the newly constructed speedway.

Word has been received from Rev. W. H. Pitzmaurice and party who crossed the continent and return in an auto attending the world's fair to the effect that they are at ease in Philadella and are expected to arrive home here in a few days.

Saturday morning Mr. and Mrs. W. Owners of automobiles are beginning to wake up to the fact that there is one great cause for the many road accidents which keep the newspaper columns sprinkled with harrowing accounts. The tendency has always been to lay these smash-ups to imperfect steering mechanism, faulty brakes or other deficiencies in the makeup of the cars, but now, the knowledge is becoming more general that the failure of tires to cling to the road and the unexpected skidding at bad spots on the macadam cause by war the largest percentage of automobile accidents.

The secretary of the A. A. A. was himself recently a victim of one of these smash-ups, due entirely to skidding, although at first the accident was attributed by the newspapers to faulty

attributed by the newspapers to faulty steering-geer. Those who, have fre-quently undergone similar experiences testify to the fact that the skidding that occurred was not the skidding that occurred was not the more familiar back-wheel skid, but the slipping of the front wheels — which caused the car either to overturn or land with smashing force against some roadside telegraph pole or tree.

With the appreciation of this day. With the appreciation of this dan-ger, many autoists are taking the pre-

ger, many autoists are taking the pre-caution of using tire chains on the front, as well as the rear wheels, with very satisfactory results; and some in mountainous sections are even mak-ing a practice of using the chains for all four wheels in dry weather, as well as on "slippery" days. To the inex-perienced this sounds like an appai-ling leap in the tire bill, due to extra wear on tires, in extremely mountain. wear on tires, in extremely mountain-ous districts; but those, who have tried the scheme of using tire chains in all weathers claim that the tres serve their full mileage. The theory

Tire chains are not fastened to the tires to pull on them every time the brakes are applied; they have sufficient "creep" to svoid this strain. And, instead, they take the brunt of way; and those who advocate this ev-

Resta's record was really second in importance to the informal opening of the track, the greatest motor speedway in the world. Resta was the magnet that drew the crowd, and his performance in many pressaged the myriad thrills which are bound to accompany the running of the Astor Cup race on Cotober 2. It may be that in this race Resta's record will be shattered. If it is not, it will be because no car has the speed and power to test the limit of the track, for experts have declared that 150 miles an hour is possible over this course.

7 Lourraft Ave., Brockton, Mass.—"My trouble began on my face with pimples. They were very large, some of them as large as bolls and were red and itchy. I had a good many and they came to a head. They itched very badly at night and when I scratched

night and when I scratched my face they spread.

"I used Outicura Scap and Ointment and the itching stopped immediately. I washed my face with warm water and Cuticura Scap, dried it and applied the Outicura Ointment. My face was clear in about three months' time and it has not bethered me since." (Signed) Mrs. Annie M. Byrose. August 3, 1914.
